

Care Management and Life Enrichment

ECAS INC.
Elder Care Advocacy Services

Trusted Guidance | Compassionate Support | Complete Peace of Mind.

You want your loved one to be safe, supported, and living a meaningful life. Balancing their changing needs with your own responsibilities can feel overwhelming. Whether you're navigating a new diagnosis, increasing care needs, or simply trying to ensure they have the support they deserve, you don't have to do it alone.

ECAS coordinates care, assists caregivers, advocates for your loved one, attends appointments, oversees important details, and provides meaningful companionship and engagement.

With years of experience in guardianship and care management, ECAS helps families navigate complex situations with compassion, professionalism, and unwavering advocacy.

Expert care for your loved one.
Peace of mind for you.

You have enough to manage.

WE'LL HANDLE THE REST.

The ECAS Difference

Medical appointments, care decisions, crisis situations, communication with providers, and daily concerns require more time than any one person has to give. We handle the details, keeping you informed so you can spend less time worrying and more time simply being a loved one, not a caretaker.

Thrive, not survive

Too often, older adults become isolated, spending their days inside their home or care community with few opportunities to engage with the world around them. We believe aging should never mean losing the routines, relationships, and experiences that bring meaning to life.

Our personalized Life Enrichment services are designed around each individual's interests and passions. From favorite restaurants and scenic drives to museums, gardens, libraries, concerts, family outings, and cherished traditions, we help clients continue living with purpose, dignity, and joy. A fulfilling life is about more than receiving care.
